

**Name of Student Chapter:** Society of Automotive Engineers

**Name of Faculty Advisor:** Prof. Sachin S Gurav

**Name of Student Coordinator:** Mr. Kunal Mangaonkar

**Objective with brief description:**

The Society of Automotive Engineers (SAE) is an international engineering society established to “develop mobility on land, in air and in space. It is an international organization with more than 84,000 members - engineers, business executives, educators, and students from more than 97 countries.

SAE gives participant a great exposure to the field of Automotive Engineering. Students get aware about design, fabrication and actual working of various parts of vehicle. Also recent trends in Automobile is updated through SAE. SAE Collegiate club at Department of Mechanical Engineering is formed with an objective of giving international exposure to the student of department in the field of Automotive Engineering.

**Activities regularly conducted / planned to conduct:**

1. Workshop on ATV design and Manufacturing
2. A project on design fabrication and testing of All Terrain Vehicle

**Tangible benefits to the students:**

1. Free subscription to online magazine
2. Discounts on registrations for major SAE India meetings and exhibits
3. Discounts on SAE technical papers and books including the handbook
4. Scholarships
5. Priority in job opportunity
