A Three Days Entrepreneurship Awareness Program

Innovation and Entrepreneurship Development Cell, Finolex Academy of Management and Technology, Ratnagiri organized three days “**Entrepreneurship Awareness Program**” from 13th to 15th March 2019.

For this three days workshop, 30 students of FAMT registered. To make this workshop successful and for versatile development of entrepreneurship skills of the students, IEDC invited Mr. Milind Datar, an experienced trainer.

On the first day, in the inaugural ceremony; Dr. Kaushal Prasad, Principal, highlighted the initiatives of Government of India like Startup India & Make in India and its importance for the growth of country. The first session was based on why and how to start a business. The afternoon session was about thinking & problem solving, decision making, team building & leadership.

On second day, the morning session was a briefing on enterprising & entrepreneurship, entrepreneurial resources, and management principles. The discussion on operations management and environmental analysis took place in the afternoon session.

On third day of the programme, the morning session was based on business idea, market survey, budgeting & forecasting, and business plan. Later in the afternoon session, the participants were briefed about business equilibrium, cost & profit management, and management information systems.

To make this workshop successful, IEDC got support, guidance and motivation from Dr. Kaushal Prasad, Principal. Prof. Y. A. Landge was the Program Coordinator and Prof S. S. Kadlag of Chemical Engineering Department and Prof S. S. Wamane of Electrical Engineering Department extended support in making the programme successful.
