

# Finolex Academy of Management & Technology, Ratnagiri

## FAMT Remote Center

### **FAMT Remote Center Organizes “Python Workshop on 22 June 2019 for Teachers and Research scholars” with IIT, Bombay**

FAMT Remote Center organized a one day “*Python Workshop on 22 June 2019 for Teachers and Research scholars*” in collaboration with IIT Bombay on 22 June 2019 to make the teachers aware of one of the most popular open source and free software development platform, i.e. Python.

Actually this workshop was organized by the Teaching Learning Centre (TLC) at IIT Bombay, a scheme of 'Pandit Madan Mohan Malaviya National Mission on Teachers and Teaching' (PMMMNMTT), an initiative of the Ministry of Human Resource Development, Government of India. However the participants attended it at about 180+ remote centers (RC) across the country, and FAMT Ratnagiri is one of it.

The IIT Bombay interacted with all participants live through A-VIEW while the workshop was going on at our remote center. During the workshop, all participants learnt Python using spoken tutorials as per the guidance of the Course Coordinator.

Total 32 faculty members from all the engineering branches in the academy attended the live sessions of the workshop by the faculty of IIT Bombay and interacted through A-View with them. Every A-View session was followed by hands-on practice session in the laboratory where participants learnt Python using *side-by-side method*. Side-by-side method is a method where participants plays spoken tutorial at one part of the screen and *subject-specific platform to practice on* to other part of the screen.

It was coordinated by Prof. Santosh V Jadhav under the supervision of Remote Center Coordinator Dr. Shashikant S. Goilkar. Mr. Sandip R. Pardule worked as Technical Staff / A-View coordinator for the workshop.
