The frontiers of education are changing continuously to shift people from the knowledge based society to a society of innovation; thus, research has become one of the most important components of higher education. Therefore, one of the indices for the measurement of such potential of any educational institution is its research activities. Avishkar Research Convention is one of such platform for students, teachers and other entities in the higher educational institutes to participate and engage themselves in research at various levels.

This workshop created awareness among participants and helped them in knowing about the entire process of Avishkar Research Convention. Dr Shashikant S Goilkar, Dean, Research and Development and his Research, Development and Consultancy Committee members took efforts under the guidance of Principal, Dr Kaushal Prasad to conduct this workshop smoothly at FAMT.
