Value added Course on 'Internet of Things'

The Department of Electronics and Telecommunication Engineering in association with Training & Placement Cell of FAMT, organized a value added Course on 'Internet of Things' from 23rd September to 29th September, 2019 on FAMT campus. Mr. Nishant Singh from Treezec E solutions Pvt. Ltd. was the resource person of the course.

Total 24 students of B.E. Electronics and Telecommunication Engineering attended the course. It helped them to understand the concepts of setting up IOT workflow, Python programming, IOT protocols, IOT cloud infrastructure and performance and security in IOT. They also gained an insight of IOT from the prospective their project work. The course was overseen by Dr. S. V. Chougule, Head of Electronics and Telecommunication Engineering Department, along with Prof. Saurabh Athalye as the Coordinator.

Dr. S.V. Chougule Felicitating of Mr. Nishant Singh
