A Value Added Course on "Angular js/node js Programming"

Departments of Information Technology and MCA organized a value added course on Angular js/node js Programming from 23rd September to 2nd October, 2019. Mr. Saurabh Gupta from Mumbai conducted the course.

Total 26 students from IT and MCA were trained in the field of web technology and its related field angular js/ node js. The students learnt important concepts regarding Angular js/node js Programming, web based project development, etc. The course would be very much useful from placement point of view since many IT companies are demanding students with advanced technology skill set. Prof. Deven ketkar was coordinated it. The students gave positive feedback.

Felicitation of resource person Mr. Saurabh gupta by Dr. V.A. Bharadi

Students attending value added course on Angular js/ node js
