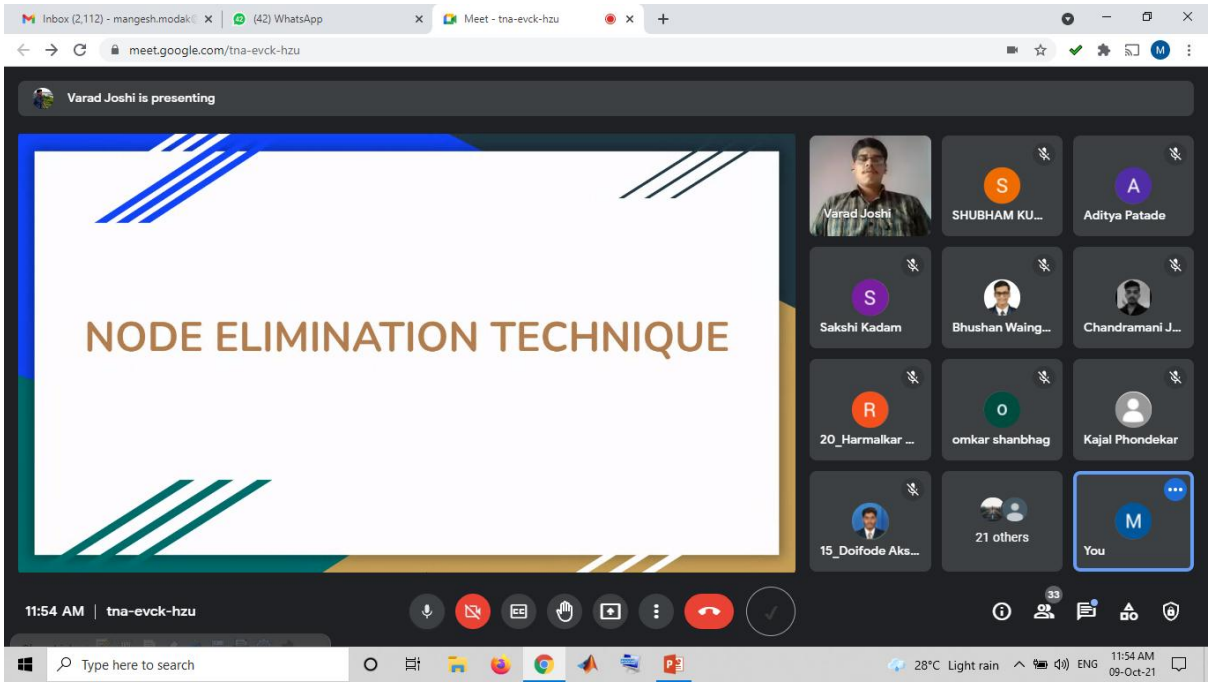
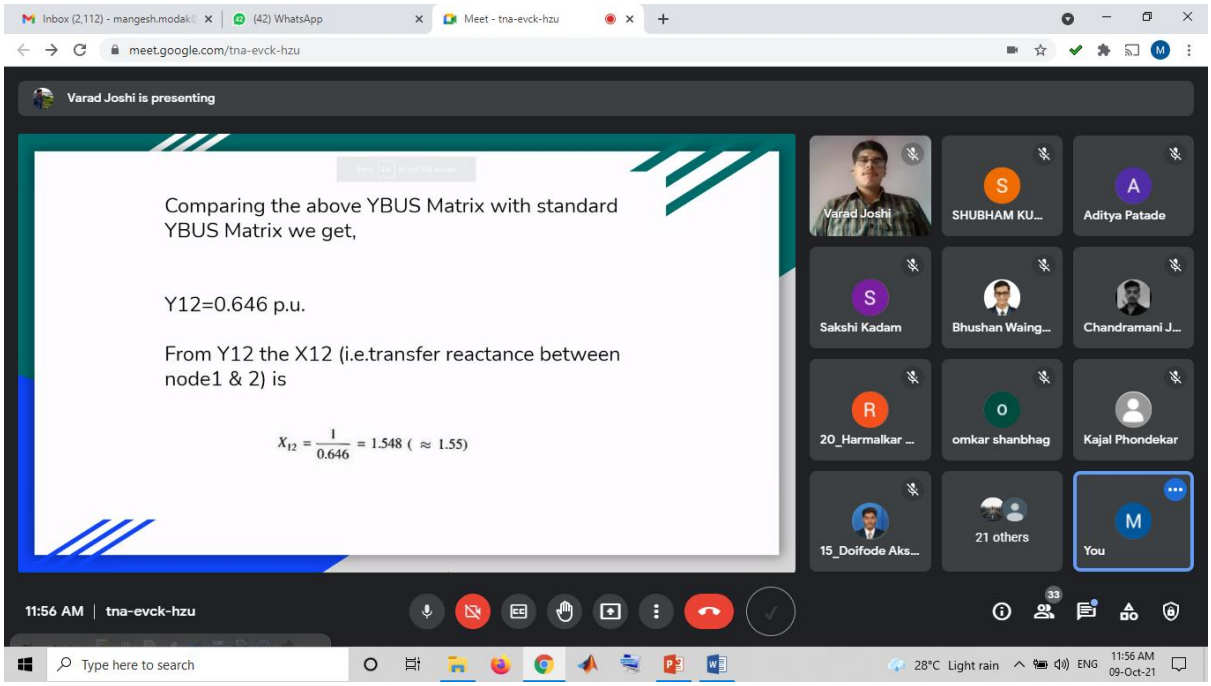
EESA Celebrated Teachers' and Engineer's Day

Electrical Engineering Student Association virtually celebrated Teachers' Day and Engineer's Day on 09th October, 2021 to express gratitude and appreciation to the teachers and engineers. Teacher's Day and Engineer's Day is celebrated to pay tribute to Dr. Sarvepalli Radhakrishnan and Mokshagundam Visvevaraya on 5th September and 15th September respectively every year.

The students of B.E taught on this day by drafting a timetable and delivering online lectures for S.E to B.E. It was followed by a programme to celebrate the occasion. The programme commenced with lighting the lamp to offer prayers to Goddess Saraswati. A student-teacher interaction programme was arranged by the students wherein the students asked questions to the teachers.

Glimpses of Event – Students Conducting Online Lectures





Varad Joshi is presenting
Comparing the above YBUS Matrix with standard YBUS Matrix we get,
Y12=0.646 p.u.
From Y12 the X12 (i.e.transfer reactance between node1 & 2) is
$X_{12} = \frac{1}{0.646} = 1.548\ (\approx 1.55)$

ACKNOWLEDGMENT
In this part, every person whom you want to mention or dedicate your work can be added here. It might be:
1. Family
2. Friends
3. Respondents
4. Collegues
5. Fellowmates
6. Subordinates
7. Professor....etc

Abstract / Summary
The abstract should be placed immediately before the first chapter of the report.(not more than 300 words)
It should take the form of a short factual statement identifying the topic of your study, the approach adopted & the findings.
Including the conclusions.
Birdseye view of the result
It is likely to be used by future students and by other researchers.
The abstract should give a brief exposition of the research problems. purposes of the study, scope of study, research

Objectives
• Understand the purposes of a report.
• Plan a report.
• Understand the structure of a report.
• Collect information for your report.
• Organize your information.
• Use an appropriate style of writing.
• Present data effectively.
• Understand how to lay out your information in an appropriate way.
