A Webinar on Cyber Awareness

Electrical Engineering Student Association organized a webinar on "Cyber Awareness" to spread awareness about how one's internet presence can be manipulated and how to avoid it. Cyber Security is a concerning topic in the world of the internet and Mr Siddhesh Shelar, a BE student of Electrical Engineering Department, took the initiative to spread awareness about it.
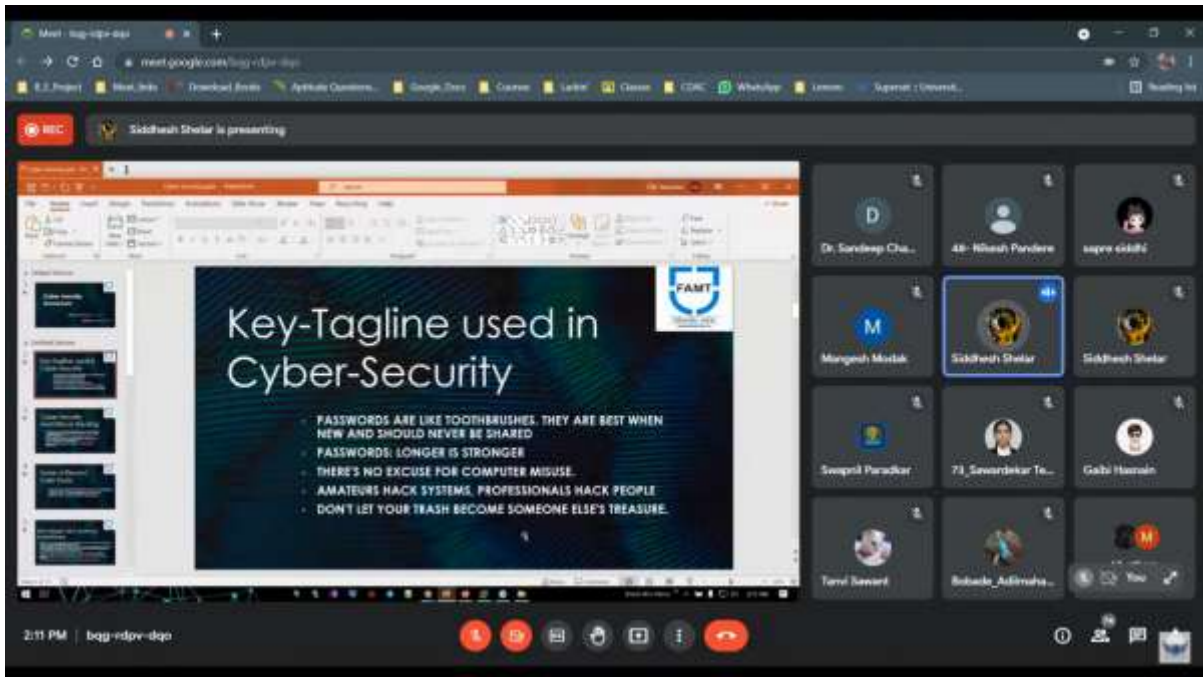

Mr Siddhesh Shelar has many prestigious certifications in the field of Cyber Security. He is a Certified Ethical Hacker (CEH) & Offensive Security Certified Professional (OSCP) with six years experience in Ethical Hacking and Cyber Security.

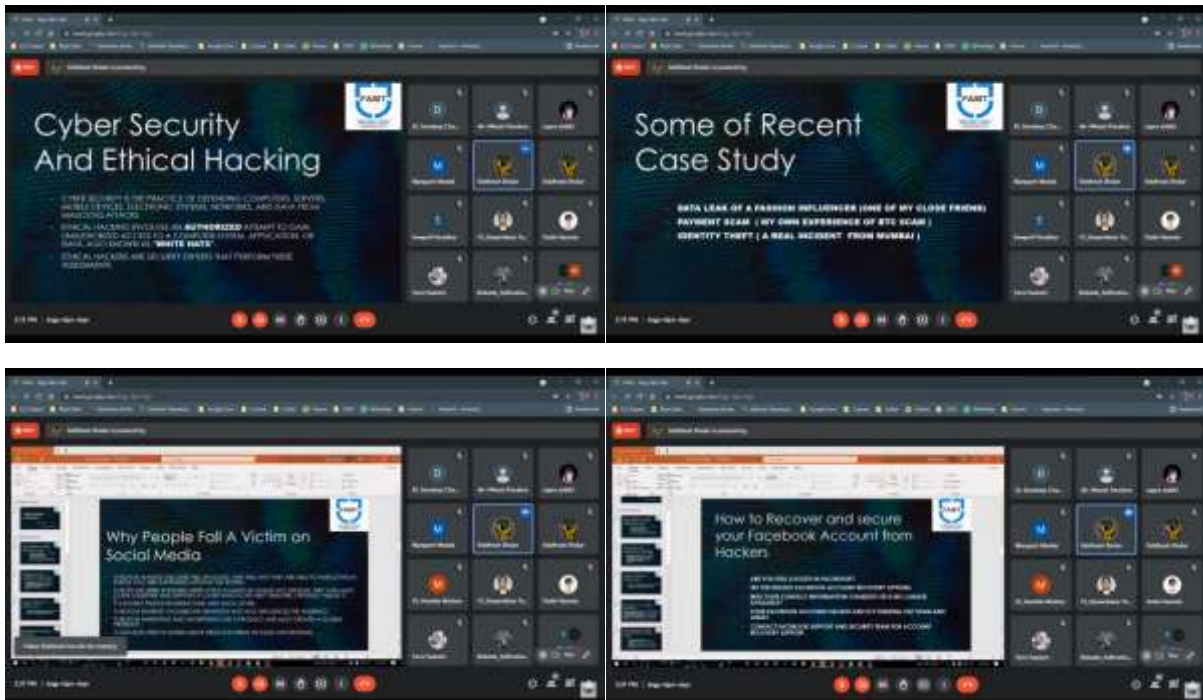

The event started with a word from our respected HoD, Dr. Sandeep Chawda by pointing out the need of such session on Cyber Security.

The speaker started with general notions one has to follow to secure one's presence on the internet.

Next, the speaker spoke about general terms related to Cyber Security which was followed by some case studies. While talking about case studies, the speaker shared some real life

incidents where people had suffered. The speaker also addressed the platform, "Facebook", which is mostly prone to affect one's internet presence.

The speaker demonstrated some prevention methods and discussed the cyber security on different OS's including the android system. The Students and Faculty asked their doubts to which the speaker answered satisfactorily during the Q&A session. The event ended with a Vote of Thanks with a hope of another informative session.
