Online Education

1. Does all programs/courses were completed on time.	Yes

2. Measures taken to complete the syllabus of courses and programs.		Educational institutes across the globe are facing multiple challenges due to the COVID 19 pandemic. FAMT adapted the change the pandemic demands and took requisite initiatives right at the onset of nationwide lockdown i.e. taking teaching, examination and other activities to an online platform using a variety of ICT tools. We took every measure for conducting the courses in online mode to ensure an uninterrupted teaching-learning process for all our students: 1. FAMT faculty members transited to 100% online teaching-learning through Google Meet, Webex and Zoom. 2. The laboratory sessions and experiments were also conducted through Virtual Lab offered by MHRD, Government of India. The videos of experiments were created and made available to the students for the experiments which were not available on Virtual Lab. 3. The students were provided with the study material in the form of notes, video lectures, and PPTs, through LMS like Google Classroom and Edmodo to facilitate learning and to support students in solving exercises and assignments. 4. The termwork assessment and examination were carried by conducting the quizzes using Google forms and rubrics. 5. Additionally, the students were encouraged to undergo virtual internships offered by many companies. FAMT also collaborated with the world-class online educational/training platforms: Coursera, Indian Institute of Remote Sensing Nodal Centre (ISRO's Educational Wing), and IBM SkillsBuild. The initiative served as a knowledge boost to FAMT faculty and students along with regular online teaching. The collaboration provided the students to pursue the online courses offered on these platforms with certification free of cost. The students and faculty pursued and completed a total of 2160 online courses on these platforms spending a record total of 18254 learning hours. The students were specifically guided to choose courses in keeping with the employability skills and curriculum requirements such as: a) Application of Geoinformatics in Ecological Studies b) Global Navigation Satellite system c) Basics of Remote Sensing Geographical Information system & Global navigation satellite system d) Understanding of Coastal ocean processes using remote sensing & numerical modelling e) Remote sensing and Digital Image Analysis f) RS and GIS application
3. The period of delay in completion of syllabus (in months).		0
4. The period of delay in conducting exams (in months).		0
