Expert Lecture on Competitive Coding

Department of Computer Science Engineering organized an Expert Lecture on **Competitive Coding** on the 5th April 2022 in online and offline mode. **Mr Siddesh Shelar**, a student in Final Year Electrical Engineering Department, was the resource person. Mr Siddesh Shelar is a certified Ethical Hacker and has undergone various Competitive Coding sessions.

The expert lecture on Competitive coding made the students learn Competitive Coding, how to prepare for Competition Coding, its resources and the best languages. The students would identify various resources(websites) and platforms available for Competitive Coding and understand the weightage of Competitive Coding in renowned software companies. It was a career-oriented talk and delivered from the prospective of placements.

The talk was organized and coordinated by Prof. Mahesh. A. Jadhav with the cooperation of Prof. Vrishali V. Nimbalkar and all the faculty members of the department. A total of 21 participants joined the talk.
