A Project of Hope Foundation- FINOLEX

Dear Readers

Warm greetings!

May you find the 12th issue of Verve in great well-being.

Our wait for normalcy in academics was finally over after almost two years into the Covid19 pandemic. Initially, we started academics and other activities online and moved to hybrid and then to offline mode. It felt great to see our students back on the FAMT campus.

This semester, FAMT successfully held an International Conference on Communication & Computing. The students continued to benefit from the invaluable guidance and expertise of our alumni and industry experts. They are also encouraged to pursue online certification courses with the regular academics to enhance their knowledge and employability skills. We take this opportunity to express our deep gratitude to our alumni and all the expert speakers for their valuable time and constant guidance.

Please take good care of yourself and your family.

Thank you and stay safe!

Team FAMT
