ELECTRICAL ENGINEERING DEPARTMENT

Final Year Student Project List		Academic Year 2022-23
Sr. NO	Project Name	
1	Charge controller for battery	
2	HMI based waterless system	
3	Battery Management Systems	
4	Controller for Switched Reluctance Motor	
5	PLC based oil tank level controller using PID	
6	Testing pannel of transformer	
7	Phasor measurement unit	
8	Electrical Machines Monitoring/control/testing	
9	Railway track crack detection system	
10	Induction Motor Protection and Real Time Data Monitoring System using IoT	
11	Design and implementation of temperature monitoring system of solar PV module	
12	Prototype sky-bus metro	
13	Prototype of water recycling system using PLC in car washing system	
14	PWM rectifier based fast EV charger for 2 wheeler	
15	Automatic synchronization unit	
16	Generator monitoring system	
17	Fuzzy logic controller
