

Industry Visit to Delight Auto Industries Pvt. Ltd.

Industry Visit to Delight Auto Industries Pvt. Ltd. Ratnagiri was arranged by the Electronics and Telecommunication Engineering (EXTC) department on March 28, 2024. 37 students from the third year EXTC visited Delight Auto Industries Pvt. Ltd. They were accompanied by Prof. Saurabh Athalye and Prof. Madhura Zagade. The visit was well-organized and guided by Dr. Sharada V. Chougale, Head of the Electronics and Telecommunication Engineering Department.

During the visit, Mr Rajeev Deole, Director of Delight Auto Industries, graciously hosted the students and provided them with an in-depth demonstration of the intricate manufacturing processes involved in producing LEDs and bulbs used in vehicles. Through interactive sessions and practical demonstrations, the students gained valuable insights into the cutting-edge technologies and innovative techniques employed by the industry.

The visit proved to be a learning experience for the students, offering them exposure to real-world industrial practices and enhancing their understanding of theoretical concepts. We extend our heartfelt appreciation to Delight Auto Industries Pvt Ltd for their warm hospitality and insightful guidance. This visit marks the beginning of a promising collaboration aimed at enriching the educational experiences of our students and preparing them for successful careers in the field of electronics and telecommunication engineering.
