MESA Organized a Logo Design Competition

The Mechanical Engineering Students' Association (MESA) organized a Logo Design Competition on 22 August, 2024. This competition aimed to create an official symbolic representation of MESA, a logo that would encapsulate the essence and identity of the student's association.

The competition witnessed enthusiastic participation, with 8 students presenting their creative logo designs. The logos were evaluated based on various criteria, including originality, relevance to the department, creativity, and visual appeal and simplicity. The winning logo was designed by Mr Guruprasad Dhotre, Third-year Mechanical Engineering.

The Head of the Department, Dr. Milind Kirkire, awarded Mr. Guruprasad Dhotre a Certificate of Appreciation during a MESA orientation ceremony.

The Logo Design Competition was successfully organized by Prof. Gayatri M Kirkire and Prof. Hemant V Chavan under the able guidance of Dr. Milind S Kirkire, Head of Mechanical Engineering Department.
