Report of “A two days workshop on Make A What Sapp”

A two days workshop on **Make a What Sapp** took place in our college on 24th and 25th of September 2016 under **ITSA and Lemures Technology**. Demo seminar regarding the same was conducted on 23rd of September 2016 at 4.00 pm in IT seminar hall.

Mr. Mahesh rakheja sir from Lemures technology conducted the same. Mr. Mahesh Rakheja sir ,a well known personality from Lemures technology, conducted several seminars before in more than 500 colleges. He trained indian army, 10,000 plus engineers, gave several interviews to NDTV, AJTAK, etc.

Workshop was conducted in CC-II lab. An inaugural function took place at 10.30 a.m. in the presence of principal Dr. Shashikant Goilkar sir , HOD,IT dept. Prof. Santosh jadhav sir, ITSA in-charge Prof. Deven Ketkar sir, Prof. Mahesh Patil and spokesperson Mr. Mahesh Rakheja sir. After that, Mahesh sir elaborated many basic things about Java programming and its use in Android technology. During their session, sir explained what actually the main idea behind many android applications and gave practical examples due to which students really understood the basic concepts.

In between, sir was demonstrating some hacking tricks to students which was very useful as far as application security is concerned. During first session, sir covered most of the theoretical part. Afterwards, they have covered most of the practical part regarding android application and its basic development needs. During practical sessions, sir told what the basic factors are required for application building in android. They have also elaborated Java programming and what kind of manipulations are required in the code for customizing application. Sir gave assignment for students which includes development of various applications like Currency converter, Calculator, Love calculator, etc. Students designed these applications in efficient way with the help of sir's guidance.

In both days of workshop, full hands on session was conducted and students got the knowledge regarding how to use an android studio for making applications. Sir gave a brief idea regarding how what Sapp works and what are its basic needs. They have also made one chatting application using android tools and deployed it. They have also made application of our college (**FAMT**) using its website.

After completion, sir cherished us with pearls of wisdom in their 10 mins. **Chocolate bonus speech.** They told many things to students and explained them what is the key to success in life. From feedback observation, we analyzed that many students thought this was best workshop of their life and is once in a lifetime opportunity to hear Mr.mahesh rakheja sir.
