Bridge Courses for the Students of Chemical Engineering

The department of Chemical Engineering has planned bridge courses for SE, TE and BE Chemical students during the odd semester of 2017-2018.

In accordance with this, the Bridge Course for SE Chemical entitled '**Elements of Chemical Engineering-IA [ECHE-IA]**' commenced on **17th August 2017**. The objective of this course is to teach second year students, fundamental concepts in the subjects being taught to them during the *IIIrd* semester. For TE Chemical students, the course bears the title '**Elements of Chemical Engineering-IIA [ECHE-IIA]**' and it began on **12th August 2017**. The course aims at improving the fundamental knowledge of subjects that are being taught to these students during the *Vth* semester. For BE Chemical students, a bridge course with the name '**Elements of Chemical Engineering-III [ECHE-III]**' commenced on **18th August 2017** with the objective of enhancing the fundamental knowledge of the subjects being taught to them during the *VIIth* semester

Prof. D. C. Dengale, Prof. S. B Bobde and Prof. S. S. Kadlag are the course coordinators for SE, TE and BE respectively, and faculties teaching in these classes are the resource persons.

**Bridge Course entitled 'Elements of Chemical Engineering –III' being conducted for BE
Chemical**
