

Finolex Academy of Management & Technology, Ratnagiri

Department of Mechanical Engineering

Industrial Visit to M/S Georg Fischer (GF) Piping Systems Pvt. Ltd.

The department of Mechanical Engineering organized two days **Industrial Visit** to M/S Georg Fischer Piping Systems Pvt. Ltd Ratnagiri on 4th & 5th October 2017 for T.E Mechanical engineering students. The visit was organized with the permission of Dr. Kaushal Prasad, Principal, and Dr. Milind Kirkire (HoD, Mechanical Engineering Department). Total 125 students of T.E. Mechanical along with three faculty members visited GF.

The company manufactures thermoplastic piping fittings & also provides customized piping solutions to industry. The plant at MIDC, Ratnagiri uses injection molding technology to manufacture piping fittings. The basic objective of this visit was to understand basic principles of plastic injection molding process. The visit was very informative and good learning experience to the students. The department is extremely thankful to the officials at M/S Georg Fischer Piping Systems Pvt. Ltd and especially Mr. Swapnil Kadam (HR Department- Georg Fischer Ratnagiri plant). Entire visit was planned and coordinated by Prof. H. R. Salvi, Prof. M. L. Naik and Prof. P. P. Thakur.

Students along with faculty members visited the company
