DEPARTMENT OF CHEMICAL ENGINEERING

One Day Workshop on Computational Fluid Dynamics

Department of Chemical Engineering organized a **One Day Workshop on Computational Fluid Dynamics on 09th October 2015** under the guidance of **Dr. R S Bhande**, Head of Chemical Engineering Department. This workshop was intended to guide the third and final year students of chemical engineering regarding application of CFD in chemical engineering. Possible career opportunities in CFD were also highlighted.

Prof. N G Kanse coordinated the organization of this workshop. **Prof. A K Bandsode** introduced the guests to the audience and gave brief outline of the workshop. In the first session, **Miss Jena Joseph** [Application Engineer and Technical Expert, CFD/FLUENT] gave introduction of CFD and discussed the possible applications of CFD in chemical engineering. In the second session she talked about the possible career opportunities in CFD for chemical engineering students. The other speaker for the day was **Mr. Srijit Jacob** [ARK/INFO solutions Limited]. He explained ANSYS software to the students and gave examples from chemical engineering. All faculty members of chemical engineering department also attended the workshop.
