Department of Mechanical Engineering

A Session on Introduction to Microprocessor Programming

The Department of Mechanical Engineering organised a Session on Introduction to Microprocessor Programming on 7th April 2025 and 11th April 2025. Prof. Suhas H. Mhabadi, Electrical Engineering Department, effectively delivered the session. The event aimed to introduce students to microprocessor programming. A total of 65 students from the second-year Mechanical Engineering attended the session.

Prof. Suhas Mhabadi delivering a session on "Introduction to Microprocessor Programming"

The session was very interesting and helped the students to understand the difference between a microprocessor and a microcontroller, interfacing of LCD with microcontroller, hardware interfacing, and software program debugging on the MPLab software.

The session was successfully coordinated by Prof. Gayatri M Kirkire under the guidance of Dr. Milind S Kirkire, Head, Mechanical Engg. Department.
