**Field Visit to Suzlon Wind Turbine Power Plant**

On Saturday, 4th October 2025, the Mechanical Engineering Students Association (MESA) organized a field visit to the Suzlon Wind Turbine Power Plant, Devgad. The visit was part of the Mumbai University syllabus for the subject Renewable Energy Sources, VII Semester, Mechanical Engineering. 16 students, along with Prof Hemant V Chavan, took part in the field visit.

**Prof. Hemant V Chavan with Suzlon officials, Mr. Rathod, and the Final year  
Mechanical Engineering students**

The visit was to understand the need for renewable energy and its potential for developing a sustainable environment, and to identify different components of wind turbines.

**Mr Rathod explained the working and control of the wind turbine to the students.**

**At the base station of the wind turbine tower**

**Prof Hemant V Chavan with the students of the elective subject Renewable Energy Sources**

The entire field visit was successfully coordinated by the MESA team under the guidance of Prof. Gayatri M Kirkire, Prof. Hemant V Chavan and Dr. Milind S Kirkire, the Head of Mechanical Engg. Department.
