

**HOPE FOUNDATION'S
FINOLEX ACADEMY OF MANAGEMENT AND TECHNOLOGY, Ratnagiri,
Maharashtra - 415639**

Department of Computer Science and Engineering (Cyber Security)

Program Educational Objectives (PEO's)

PEO1	Graduates will establish successful careers in computer science and cyber security by applying core engineering knowledge to solve real world problems.
PEO2	Graduates will pursue higher education, research and professional certification in emerging areas of computing and cyber security.
PEO3	Graduates will demonstrate multidisciplinary competence, teamwork, leadership and project management skills in professional environments.
PEO4	Graduates will engage in life-long learning, adapt to technological advancements and uphold ethical and societal responsibilities.

Program Specific Outcomes (PSO's)

PSO1	Utilization of core engineering knowledge: Apply core knowledge of computer science and cyber security to identify, analyze and mitigate security threats in computing systems and networks.
PSO2	Utilization of Domain specific knowledge: Design, develop and implement secured software systems, cryptographic solutions and cyber defence mechanism using modern tools and technologies.
PSO3	Awareness and adaptability to recent trends: Investigate cyber incidents, perform digital forensics and ensure compliance with legal, ethical and social aspects of cyber security.
