Mandvi Beach Cleaning Drive

Date:-08-04-2026

A social activity focused on cleanliness and environmental awareness was successfully conducted at Mandvi Beach on the morning of 8th April 2026. The drive was organized by the students of the Computer Science and Engineering (Artificial Intelligence & Machine Learning) department with the primary objective of promoting the importance of nature conservation and instilling a sense of responsibility towards maintaining cleanliness among students and society.

The drive commenced early in the morning with enthusiastic participation from students and faculty members. Equipped with gloves, garbage bags, and other necessary materials, the participants actively engaged in cleaning the beach area by collecting plastic waste, bottles, wrappers, and other non-biodegradable materials. The initiative not only helped in improving the cleanliness of the beach but also created awareness about the harmful effects of pollution on marine life and the ecosystem.

The main objective of this event was to create social awareness regarding environmental protection, cleanliness, and sustainable living practices. Through this hands-on activity, students gained practical exposure to community service and understood the importance of contributing towards a cleaner and greener environment.

This noble initiative gained significant attention and appreciation from the local community. Honourable Shri Santosh Keer, Local Corporator and Badhkam Sabhapati of Ratnagiri Nagar Parishad, acknowledged the efforts of the students and appreciated their commitment towards social responsibility. His presence and encouragement further motivated the participants and highlighted the importance of such initiatives at the community level.

Overall, the Mandvi Beach cleaning drive was a successful and impactful event. It not only enhanced environmental awareness among students but also encouraged active participation in social causes. Such initiatives play a crucial role in shaping responsible citizens and promoting sustainable development for a better future. A student from the SE class, Vedant Surve, played an important role in making this event successful.

Participating students of the Association of Students of Computer Science and Engineering (ACSES) in Mandvi Beach Cleaning with Hon. Shri. Santosh Keer (Local Corporator, Bandhkam Sabhapati, Ratnagiri Nagar parishad)

Immense hard work done by students to clean the beach, and the garbage collected during the cleaning activity
