**A Seminar on CAD and Simulation Software and Its Practical Applications**

The First Year Engineering Students' Association (FESA) organized a Seminar on “Introduction to CAD and Simulation Software and Its Application in Mechanical Engineering” on 24 March 2026 (Tuesday) for first-year Mechanical Engineering students. The seminar aimed to raise awareness of commonly used mechanical engineering software and its applications.

The session was conducted by **Mr. Amit Jadhav**, who introduced students to various tools such as CAD and simulation software. He explained their basic functions and highlighted their importance in solving real-world engineering problems. Through this seminar, students developed an understanding of different mechanical software, learned to differentiate between CAD and simulation tools, and gained awareness of their practical applications. A total of 80 students participated.

The event was coordinated by **Prof. A. Nandhini** and **Prof. Hemant Chavan**, ensuring the smooth conduct of the programme. The session was informative and beneficial for all participants.
