Ratnagiri
Department of Information Technology

Major and Mini Project Exhibition

The Department of Information Technology at Finolex Academy of Management and Technology, Ratnagiri successfully organized a **Project Exhibition of Major and Mini Projects** on 3rd April 2026.

The exhibition primarily showcased innovative and technically rich projects developed by **Third Year (TE)** and **Final Year (BE)** students. These projects reflected students' understanding of real-world problem-solving, creativity, and application of technical knowledge. The event was specially organized for **Second Year (SE) students**, with the objective of providing them exposure to advanced project development, implementation strategies, and presentation techniques. It served as an excellent learning platform for SE students to understand how academic concepts are transformed into practical applications.

The exhibition was conducted at multiple venues:

- **BE Projects:** Seminar Hall
- **TE Mini Projects:** L & AB 1/1 and L & AB 1/3

The event witnessed enthusiastic participation from students and faculty members. Second-year students actively interacted with project groups, gaining insights into technologies, tools, and methodologies used in project development. The event resulted in the following outcomes:

1. Practical exposure to real-time project development for Second Year students.
2. Improved understanding of implementation strategies and technologies.
3. Enhanced motivation among students for developing innovative projects.
4. Development of presentation and communication skills among participants.

The exhibition was coordinated by Mrs. Madhura K. Zagade under the guidance of Dr. Vinayak A. Bharadi (HoD, IT Department).

Students presented their Project to SE -IT Students
