## **Project Competition**

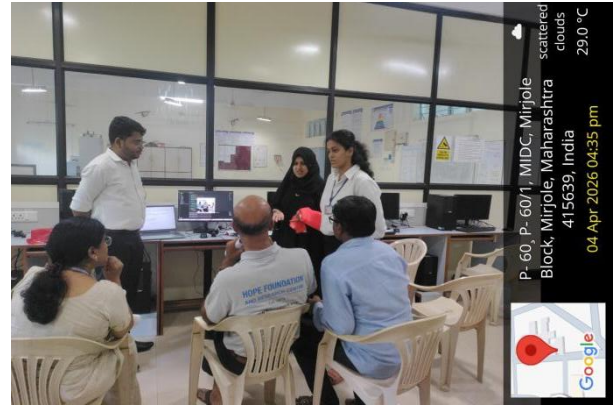

A department-level project competition was organized by the Department of Electronics and Telecommunication Engineering in association with the Research and Development Consultancy Cell (RDCC) for SE EXTC and BE EXTC students, on 04<sup>th</sup> April, 2026.

The Students of SE EXTC and BE EXTC actively participated in the competition. Students demonstrated their projects and explained working principles with the help of posters and/or presentations. **Prof. Amar Palwankar, Dr. S. V. Chougule, Dr. A. R. Sutar** judged the projects and guided them for further improvement in the project.

The objectives of this project competition are:

- To provide students with an opportunity to showcase theoretical knowledge gained during the courses to solve practical problems.
- To enhance student's ability to communicate effectively and present their project work, methodologies, and results professionally.
- To encourage teamwork and collaboration among students by working together in groups to develop the project, thus simulating solutions of problems in real-world.

The exhibition cum competition was coordinated by **Mrs. Neha A. Marathe and Dr. Vijay M. Galshetwar** of the EXTC Department, under the guidance of HOD EXTC **Dr. S.V. Chougule**.
