

One Day Add-On Course on “Innovation-Driven Project Development Practices”

One day add-on course on " **Project Planning and Execution Practices**", was organized by the Department of Electronics and Telecommunication Engineering as a part of the Innovation and Entrepreneurship Development Cell, on 6th August 2026. In this course, final-year students were given exposure to the importance of major projects from their career point of view, project topic selection, preparation and planning for the project and project execution practices.

The objectives of this training program were to:

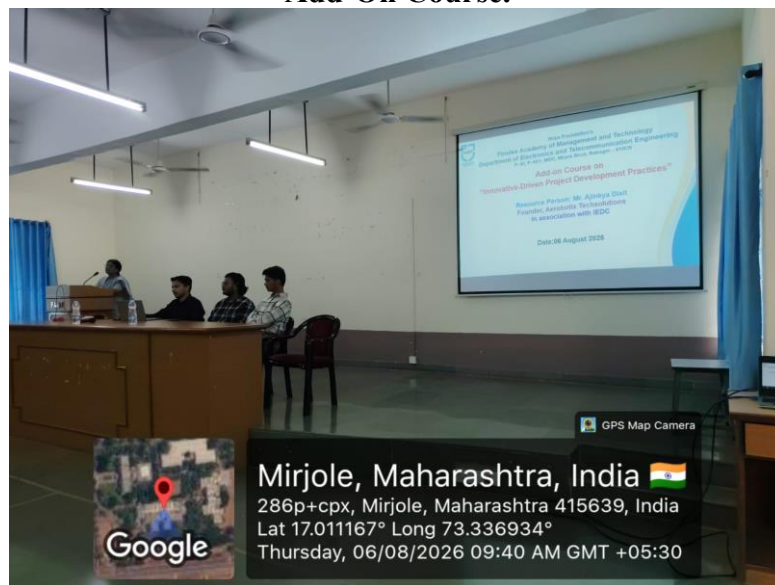

1. To familiarize students with industry-oriented approaches to project planning, execution, and project management.
2. To enable students to identify, design, and execute innovative engineering projects that address real-world problems and meet industry requirements.

Dr. V. M. Galshetwar introduced and welcomed the resource person. **Dr. S. V. Chougule**, HOD, EXTC Department, graced the inaugural program. The resource person, **Mr. Ajinkya D. Dixit**, Founder, Aerobotix Techsolutions Pvt. Ltd, Kolhapur, conducted the add-on course. Team members, Mr. Samarth and Mr. Shahid, contributed to the successful completion of the course.

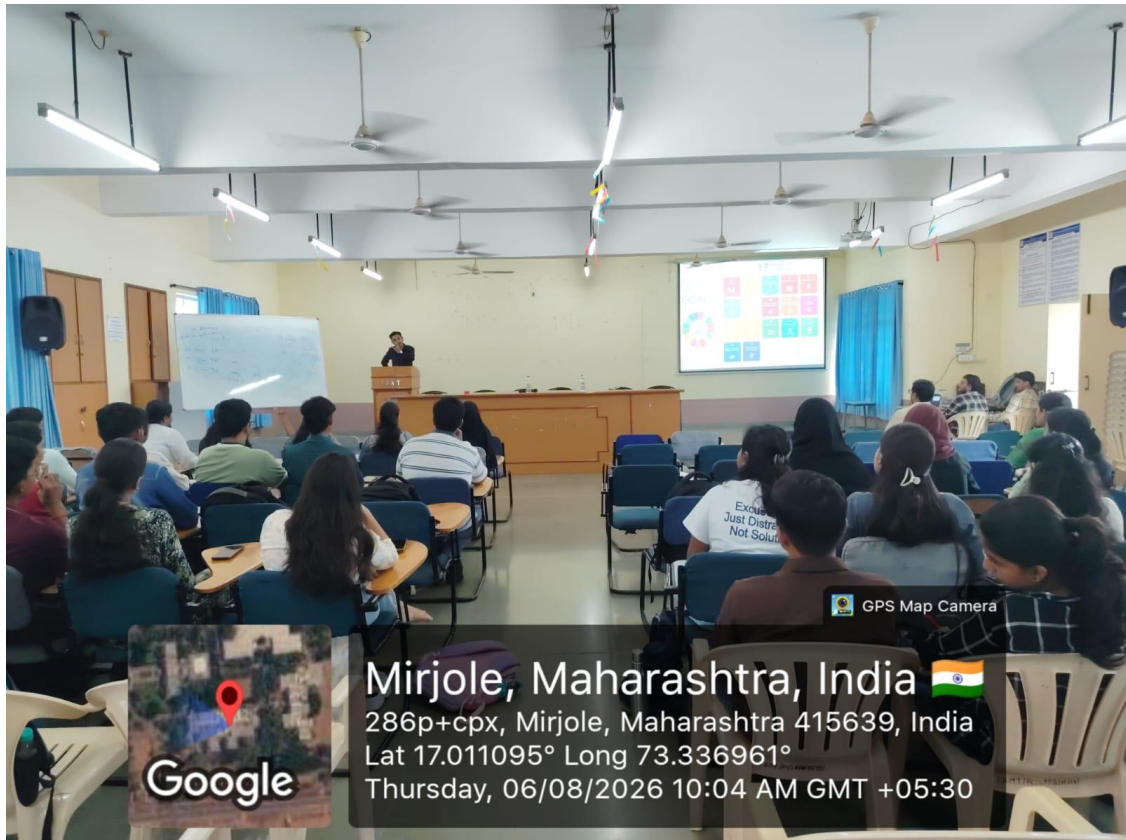

Dr. V. M. Galshetwar worked as Faculty Coordinator of the event under the guidance of HOD EXTC **Dr. S V Chougule**. A total of 58 students from BE EXTC actively participated in the training program and shared their feedback at the end of this course.

Inauguration function: The Co-ordinator, Dr. V. M. Galshetwar, welcomed the Resource Person and his Team. Also, talked about the objectives and conduct of this Add-On Course.
