Expert Lecture on
“Career Opportunities and Industry Insights in Chemical Engineering”

The Department of Chemical Engineering organized an Expert Lecture on **“Career Opportunities and Industry Insights in Chemical Engineering”** on 12th August 2026. The session featured **Mr. Mayuresh Panjari**, an esteemed alumnus of the Chemical Engineering Department from the 2017 batch, who is currently working as a Senior Process Engineer at **Ingeneroo Technologies Pvt. Ltd.**

The lecture was organized with the objective of bridging the gap between academic learning and industrial requirements by providing students with practical knowledge, industry insights, and professional guidance. The expert lecture focused on career opportunities and industry trends in Chemical Engineering, helping students understand the diverse career pathways available in the chemical industry.

Mr. Panjari shared valuable insights into industry expectations, professional skills, process engineering roles, workplace challenges, and career growth opportunities. He also emphasized the importance of strong technical fundamentals, practical knowledge, problem-solving abilities, effective communication, teamwork, and continuous learning for building a successful career in the chemical industry. His professional experience gave students a practical understanding of the transition from academic life to the industrial environment.

The lecture was organized in collaboration with the **Association of Chemical Engineering Students (ACES)** and was conducted in the presence of **Dr. Nitin Kanse**, Head of the Department, and **Prof. R. K. Marag**, ACES In-charge. The program was successfully coordinated by the Second-Year Chemical Engineering students, with **Mr. Ankur Sathe** serving as the host and ensuring the smooth conduct of the session.

The event was attended by 30 students, who actively participated in the interactive session and benefited from the speaker's valuable experiences and career guidance. Prof. R. K. Marag successfully coordinated the program. Overall, the lecture was informative and enriching, providing students with valuable insights into career opportunities, industry expectations, and professional growth in Chemical Engineering.
