

Seminar on Overview of Electric Vehicles

The SAEINDIA Collegiate Club at Finolex Academy of Management and Technology, Ratnagiri, organized a seminar on “Overview of Electric Vehicles” on 24th August 2026 as part of its student development and technical awareness activities. The program aimed to provide students with up-to-date knowledge of electric vehicle technology, its applications, and its growing importance in the future of the automotive and mobility sectors.

Mr. Sanjay Nimbandhe, SAEINDIA Member and Governing Board Member of SAEINDIA Western Section, delivered the seminar. He provided students with valuable insights into the fundamentals of electric vehicles, major components and systems, electric powertrains, battery technology, charging infrastructure, and the transition from conventional vehicles to electric mobility. The session also highlighted emerging opportunities and challenges associated with adopting electric vehicles. A total of 155 students were present for the seminar.
