**Industry Readiness and Emerging IT Technologies - An
Awareness Session by CSE (AI & ML) & IT Departments**

The Department of Information Technology and the Department of Computer Science and Engineering (Artificial Intelligence and Machine Learning), Finolex Academy of Management and Technology (FAMT), Ratnagiri, jointly organized an awareness session titled “Industry Readiness and Emerging IT Technologies” on 13th October 2026 for Final Year (B.E.) students.

The primary objective of the session was to provide students with a comprehensive understanding of the evolving technological landscape, particularly in the domains of Artificial Intelligence (AI), Machine Learning (ML), and Data Science. The session focused on current industry trends, essential technical and professional skills, emerging job roles, and future career opportunities in these high-demand fields. It also aimed to bridge the gap between academic learning and industry expectations, enabling students to make informed decisions regarding their career paths and professional development.

The session was conducted by Mr. Nilesh Shirke, representing Mumbai Education Trust (MET), Mumbai, and C-DAC, who served as the resource person. He shared valuable insights into the latest technological advancements, industry requirements, and the skills expected from aspiring IT professionals. His guidance helped students understand the importance of continuous learning, practical knowledge, and industry-oriented skill development to succeed in the competitive IT sector.

The event was coordinated by Prof. Onkar Dike, Assistant Professor, Department of Information Technology, and Dr. Yogesh M. Gajmal, Associate Professor and Head, Department of CSE (AI & ML), with the encouragement and support of the Hon'ble Principal, Dr. Kaushal Prasad.

The session was interactive and informative, and the participating students showed keen interest in the discussions. The programme provided valuable exposure to emerging technologies and industry expectations, motivating students to enhance their technical competencies and prepare themselves for future career opportunities. The positive response from the participants reflected the importance of organizing such industry-oriented awareness sessions in the future.

Overall, the session was a valuable initiative towards enhancing students' industry readiness and creating awareness about emerging technologies and career opportunities in the IT sector.
