

MESA Celebrates Engineers' Day 2026

On 1st October 2026, the Mechanical Engineering Students Association (MESA) organized a grand celebration of **Engineers' Day**. 72 students of SE, TE and BE Mechanical Engineering participated in the celebration.

The proceedings opened on a solemn and auspicious note with the traditional *Deep Prajwalan* (lamp lighting ceremony), accompanied by an invocation, seeking blessings for wisdom and professional growth. The celebration commenced with a formal welcome address by the student anchors, warmly greeting the Head of Department, faculty members, staff, and student participants, setting an uplifting and celebratory tone for the session. Following this, the student committee conducted a formal felicitation ceremony for each faculty member as a gesture of enduring respect and appreciation for their tireless mentorship.

Students of the Mechanical Engineering Department expressed heartfelt gratitude to the faculty for their dedicated guidance and mentorship while instilling technical pride, professional ethics, and innovation among aspiring engineering graduates. The formal speaking segment featured speeches by the Head of Department and some faculty members, who highlighted the critical intersection between engineering innovation and moral responsibility.

Head of MED, Dr. Milind S. Kirkire addressing the students

The teachers urged students to focus on real-world problem-solving, technical adaptability, and lifelong learning.

Adding strong peer motivation to the forum, a special student address was delivered by a student placed at **ElectroMech Material Handling Systems**. The speakers shared key milestones from their placement journey, detailing core technical preparation, aptitude training, interview strategies, and specifically highlighting how continuous guidance from the department faculty proved instrumental in cracking the campus placement drive.

The gathering subsequently transitioned into vibrant recreational activities aimed at building departmental camaraderie and providing light-hearted engagement. A curated series of entertaining and interactive fun games was conducted exclusively for faculty members, which drew enthusiastic participation and brought smiles across the hall.

Students playing fun games

To maintain lively engagement between rounds, student anchors hosted interactive filler sessions comprising technical riddles, brain teasers, and rapid-fire spot questions. This was immediately followed by competitive fun games and team-building activities arranged for the students, celebrating youthful energy and collective problem-solving.

The festive morning culminated in a prize distribution ceremony, wherein winning faculty members and students were applauded and presented with commemorative gifts by department heads and coordinators. The official proceedings came to a formal close with a heartfelt vote of thanks, acknowledging the college management, faculty advisors, student coordinators, and attendees for making the event a memorable success. The celebration concluded with a group photograph session capturing faculty members, staff, and students together.
